## Independent Auditors' Review Report

To the Board of Directors of Union Insurance Co., LTD.:

### Introduction

We have reviewed the accompanying balance sheets of Union Insurance Co., LTD. as of September 30, 2025 and 2024, and the related statements of comprehensive income for the three months and nine months ended September 30, 2025 and 2024, as well as the changes in equity and cash flows for the nine months ended September 30, 2025 and 2024, and notes to the financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the financial statements based on our reviews.

### Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Republic of China. A review of the financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying financial statements do not present fairly, in all material respects, the financial position of Union Insurance Co., LTD. as of September 30, 2025 and 2024, and of its financial performance for the three months and nine months ended September 30, 2025 and 2024, as well as its cash flows for the nine months ended September 30, 2025 and 2024 in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Wu, Cheng-Yen and Tsai, Pei-Ju.

#### Notes to Readers

The accompanying financial statements are intended only to present the financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' review report and the accompanying financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' review report and financial statements, the Chinese version shall prevail.

**(English Translation of Financial Statements Originally Issued in Chinese)**

**UNION INSURANCE CO., LTD.**

**Notes to the Financial Statements**

**For the nine months ended September 30, 2025 and 2024**

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

**(1) Company history**

UNION INSURANCE CO., LTD. (the “Company”) was founded on February 20, 1963 and registered under the Ministry of Economic Affairs, R.O.C. The address of the Company’s registered office is 12th Floor, No. 219, Sec. 4, Zhongxiao E. Road, Taipei, Taiwan, R.O.C. The Company are primarily engaged in underwriting of fire, marine, automobile, engineering, liability and accident insurance, reinsurance, insurance businesses entrusted by other companies, performing a variety of investments and other businesses in accordance with the regulations.

**(2) Approval date and procedures of the financial statements:**

These financial reports were approved and announced by the Board of Directors on October 31, 2025.

**(3) New standards, amendments and interpretations adopted:**

(a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2025:

- Amendments to IAS21 “Lack of Exchangeability”

(b) The impact of IFRS Accounting Standards endorsed by the FSC but not yet effective

The Company’s anticipated adoption of the new amendments beginning on January 1, 2026, are expected to have the following impacts:

(i) IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”

The new standard establishes principles for the recognition, measurement, presentation, and disclosure of insurance contracts issued. These principles apply to insurance contracts issued by entities (including reinsurance contracts), reinsurance contracts held, and investment contracts with discretionary participation features—provided the entity also issues insurance contracts.

The main provisions are as follows:

- Recognition: An entity recognizes a group of insurance contracts that it issues from the earliest of the beginning of the coverage period of the group of contracts, the date when the first payment from a policyholder in the group becomes due, and for a group of onerous contracts, when the group becomes onerous.

(Continued)

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

- Measurement: On initial recognition, insurance contract groups shall be measured as the sum of the fulfilment cash flows and the contractual service margin. Subsequent measurement shall follow a current estimate model, requiring remeasurement at each reporting period. Measurement is based on discounted, probability-weighted cash flows, risk adjustment, and the contractual service margin representing unearned profit. Entities may apply a simplified measurement approach (premium allocation approach) for certain contracts. For contracts with direct participation features, the variable fee approach shall be used. Revenue shall be recognized during the coverage period and when the entity is released from risk. If a group becomes onerous, the entity shall immediately recognize a loss.
- Presentation and Disclosure: The standard specifies the presentation of insurance contract assets, liabilities, and profit or loss, requiring separate reporting of insurance revenue, insurance service expenses, and insurance finance income and expenses. It also requires disclosure of amounts, judgments, and risk information related to insurance contracts, including detailed descriptions of the measurement models, key assumptions, and analysis of changes in risk characteristics.

In addition, at the transition date (the beginning of the annual reporting period preceding the initial application date), entities shall apply IFRS 17 using one of the following methods:

- Full Retrospective Approach: Entities shall apply the full retrospective approach unless impracticable, in which case the modified retrospective approach or the fair value approach shall be used.
- Modified Retrospective Approach: May be applied when results can be achieved close to the full retrospective approach without undue cost or effort.
- Fair Value Approach: The contractual service margin shall be determined as the difference between the fair value of the insurance contract group (as measured under IFRS 13) and the fulfilment cash flows at the transition date.

To comply with the new standard, the Company launched the implementation project in 2018, including personnel training, development of accounting policies and methodology, evaluation and adoption of actuarial assumptions, construction of measurement models, adjustment of operating processes, system development and testing, planning of internal control processes, financial statement presentation and disclosure, risk management, etc. The implementation is progressing in accordance with the established timeline and remains under continuous assessment.

As of the date of issuance of the financial statements, significant progress has been made in the implementation of IFRS 17. However, certain key parameters are still under evaluation, the Company is currently unable to reliably estimate the impact of adopting the standard on the financial statement.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

(ii) Other amendments

The following amendments are not expected to have a significant impact on the Company's financial statements.

- Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments"
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 "Contracts Referencing Nature-dependent Electricity"

(c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

<b>Standards or Interpretations</b>	<b>Content of amendment</b>	<b>Effective date per IASB</b>
IFRS 18 "Presentation and Disclosure in Financial Statements"	<p>The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities.</p> <ul style="list-style-type: none"> <li>● A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined 'operating profit' subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company's main business activities.</li> </ul>	<p>January 1, 2027</p> <p>note:On September 25, 2025, the FSC issued a press release announcing that Taiwan will adopt IFRS 18 beginning in 2028. Entities that need to adopt the new standard earlier may do with the endorsement of the FSC.</p>

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

<b>Standards or Interpretations</b>	<b>Content of amendment</b>	<b>Effective date per IASB</b>
	<ul style="list-style-type: none"> <li>● Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards.</li> <li>● Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes.</li> </ul>	

The Company is evaluating the impact on its financial position and financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 19 “Subsidiaries without Public Accountability: Disclosures” and amendments to IFRS 19 “Subsidiaries without Public Accountability: Disclosures”

**(4) Summary of material accounting policies:**

**(a) Statement of compliance**

These financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Companies and guidelines of IAS 34 “Interim Financial Reporting” which are endorsed and issued into effect by FSC, and do not include all of the information required by the Regulations and International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the FSC (hereinafter referred to IFRS endorsed by the FSC) for a complete set of the annual financial statements.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

Except the following accounting policies mentioned below, the material accounting policies adopted in the financial statements are the same as those in the financial statement for the year ended December 31, 2024. For the related information, please refer to note 4 of the financial statements for the year ended December 31, 2024.

**(b) Income taxes**

The income tax expenses have been prepared and disclosed in accordance with paragraph B12 of IAS 34 “Interim Financial Reporting”.

Income tax expenses for the period are measured by multiplying together the pre-tax income for the interim reporting period and the management’s best estimate of effective annual tax rate. This should be recognized fully as tax expense for the current period.

Temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their respective tax bases shall be measured based on the tax rates that have been enacted or substantively enacted at the time of the asset or liability is recovered or settled, and be recognized directly in equity or other comprehensive income as tax expense.

**(c) Employee benefits**

The pension cost in the interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year, adjusted for subsequent significant market fluctuations and for significant workforce reduction, settlements, or other significant one-off events.

**(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:**

The preparation of the financial statements in conformity with the Regulations and IAS 34 “Interim Financial Reporting” endorsed by the FSC requires management to make judgments, and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In these financial statements, judgments and key sources of estimation uncertainty used by management in the application of critical accounting policies are expected to be consistent with those of Note 5 of the financial statements for the year ended December 31, 2024.

<b>Total</b>	<b>\$ 1,174,485</b>	<b>2,541,497</b>	<b>1,862,327</b>

Sensitivity analysis - the risk of equity price:

If there is an increase in the securities' price of 1% on the reporting date (assume that all other variables remain the same), the impact on net income before income tax for the nine months ended September 30, 2025 and 2024 will increase \$11,745 and \$18,623, respectively. Conversely, if there is a decrease in the securities' price of 1% on the reporting date based on all other variables remaining the same, there will be the same amount but opposite direction of influence.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

**1) Debt investments at fair value through other comprehensive income**

The Company has assessed that the securities are held within a business model whose objective is achieved by both collecting the contractual cash flows and selling securities. Therefore, the investment was classified as financial assets measured at fair value through other comprehensive income.

**2) Equity investments at fair value through other comprehensive income**

The Company designated the investments shown above as equity securities at fair value through other comprehensive income because these equity securities represented those investments that the Company intended to hold not for trading purposes.

During the three months and nine months ended September 30, 2025 and 2024, the dividends of \$101,041, \$78,597, \$125,119 and \$82,133, respectively, related to equity investments at fair value through other comprehensive income held on the periods then ended, were recognized; the dividend of \$0, \$12,601, \$0 and \$16,451, respectively, related to the investments derecognized during the three months and nine months ended September 30, 2025 and 2024 were recognized.

The Company disposed shares designated as measured at fair value through other comprehensive income due to assets allocation, managing and rearranging portfolio. The disposed shares, during the three months and nine months ended September 30, 2025 and 2024, were as follows:

	For the three months ended September 30,		For the nine months ended September 30,	
	2025	2024	2025	2024
Fair value	\$ -	218,686	14,169	312,841
Accumulated gains (losses) by disposing	\$ -	21,286	(6,698)	34,494

The accumulated gains (losses) by disposing above have been transferred from other equity to retained earnings.

Sensitivity analysis - the risk of equity price:

If there is an increase in the securities' price of 1% on the reporting date (assume that all other variables remain the same), the impact on other comprehensive income before taxes for the nine months ended September 30, 2025 and 2024 will increase \$32,089 and \$21,165, respectively. Conversely, if there is a decrease in the securities' price of 1% on the reporting date based on all other variables remaining the same, there will be the same amount but opposite direction of influence.

- 3) Please refer to Note 6(u) for further information of credit risk.
- 4) Please refer to Note 6(u) for further information of the movement in loss allowance of debt investments at fair value through other comprehensive income.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

**(m) Remunerations to employees and directors**

On May 27, 2025, the Company resolved at the shareholders' meeting to amend its Articles of Incorporation. According to the amended Articles, if the Company has profit in a given fiscal year, the profit shall be used to offset against any accumulated losses incurred by the Company. The remainder, if any, at least 1% shall be allocated as employee remuneration (including a minimum of 0.5% to those base-level employees) and a maximum of 3% as remunerations for directors. Prior to the amendment, the Articles of Incorporation stipulated that, if the Company has annual profit, it should appropriate 1%~5% of the profit to its employees and no more than 5% to its directors as remunerations. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit.

For the three months and nine months ended September 30, 2025 and 2024, the Company estimated its employees remuneration amounting to \$4,500, \$6,000, \$9,000 and \$14,000, and remunerations to directors were \$0, \$0, \$1,000 and \$0, respectively. The estimated amounts mentioned above were calculated based on the net profit before tax, excluding the remunerations to employees and directors of each period, and after deducting accumulated losses, then multiplied by the percentage of remunerations to employees and directors as specified in the Company's articles. These remunerations were expensed under operating costs or expenses for each period. If the actual amounts were subsequently decided after the approval and the issuance date of the financial statements in the following year differ from the estimated amount, the differences are accounted for as changes in accounting estimates and recognized in profit or loss in the following year. If the Board of Directors resolved to distribute the employees' remuneration in the form of shares, the number of shares of the distribution is based on the closing price of the day before the Board of Directors' meeting date.

The amounts of remunerations to employees of the Company in 2024 and 2023 were \$27,000, \$2,000 and remunerations to directors were \$6,000 and \$0, respectively. There is no difference in the actual distribution situation. Relevant information can be obtained from the Market Observation Post System.

Total	<u><u>\$ 32,976</u></u>	<u><u>63,046</u></u>	<u><u>191,167</u></u>	<u><u>160,470</u></u>

The Company's tax returns for the year through 2022 were assessed by the Taipei National Tax Administration tax authorities.

(p) Capital and other equity

(i) Share capital

As of September 30, 2025, December 31 and September 30, 2024, the number of authorized ordinary shares were all \$6,236,320 with par value of \$10 per share, i.e. 623,632 thousand shares. The issued shares were both 223,608 thousand shares of common stock.

(ii) Retained earnings

1) Legal reserve

According to the Company Act, the Company is able to issue new stocks or cash dividends from legal reserve if there is no deficit as long as the legal reserve is over 25% of the paid in capital.

2) Special reserve

Based on Financial Supervisory Commission Jin Guan Bao Cai Zi No. 10102508861 on June 5, 2012, the Company distributes retained surplus that transferred from the special reserve of unrealized revaluation increment \$12,143, and appropriated the same amount to a special reserve.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

Based on Financial Supervisory Commission Jin Guan Bao Cai Zi No. 11004920441 on June 11, 2021, a portion of earnings shall be appropriated as special reserve during the earnings distribution. For the current debit balance on other equity interest, an equivalent amount of special reserve shall be appropriated from the after-tax net profit in the period, plus items other than the after-tax net profit in the period, that are included in the undistributed current period earnings. If the special reserve is insufficient, the Company should appropriate it from undistributed prior-period earnings. For the debit balance on other equity interest pertaining to prior periods, an equivalent amount of special reserve is appropriated from the undistributed prior-period earnings. If the Company has already appropriated a portion of earnings to special reserve under the preceding subparagraph, the Company shall make supplemental appropriation of special reserve for any difference between the amount it has already allocated and the amount mentioned above. The special reserve can be reversed due to net reduction of the debit balance of other shareholders' equity. As of September 30, 2025, December 31 and September 30, 2024, the special reserve distributed by the Company in accordance with the regulations were \$48,424, \$0 and \$0, respectively.

According to the letter from the Financial Supervisory Commission Jin Guan Bao Cai Zi No. 10502066464 on July 13, 2016. The insurance industry should allocate a special surplus reserve from 0.5% to 1% of the net profit after tax when the 2016-2018 fiscal year surplus is distributed. Moreover, since 2017, the expense of employee transferring training, transferring occupation, and settle down during the development of financial technology should be reversal. As of September 30, 2025, December 31 and September 30, 2024, the special reserve distributed by the Company in accordance with the regulations were all \$0.

3) Undistributed retained earnings appropriated

Under the Company's Article of Incorporation, the Company's net income after deduction of income tax and losses (if any) and offset the prior years' deficits, should be provisioned 20% of remaining amount as legal reserve, except the legal reserve is equal to the capital. In addition to any remaining profit together with any undistributed retained earnings shall be distributed based on the Company considering the operating need and legal requirement to provision special reserve, the distribution plan proposed by the Board of Directors and submitted to the stockholders' meeting for approval.

The remuneration of non-executive director in the Company is authorized to the board's meeting to set rational remuneration, and do not attend the earning distribution. The Company belongs to property and casualty insurance, the enterprise development should cooperate with the Government's policy and risk-based capital, the ability of underwriting and solvency have to be stronger. The Company's earning distribution policy has to consider the current and future investment environment, capital requirement, market competition situation and budget, etc., with the benefit of shareholders, balancing dividend and long-term financial plan, etc. and then the earning distribution that the board's meeting set will provide to the shareholder's meeting. The earning distribution should be in form of cash or stock dividend to distribute, in addition to the amount of cash dividend should not be lower than 10% of stock dividend. However, the amount of par cash dividend is lower than \$0.1, the dividend should use the form of stock dividend to distribute.

Note: Due to various insurance contract frameworks are difference, the impact of a one percent change in rate of expected loss is not linear relationship to incomes and losses.

2) Concentration of insurance risk

The risk of insurance risk concentration is controlled by reinsurance transfer method. For example, the risk caused by natural disasters is based on the RMS and Verisk Touchstone (AIR) natural disaster model is used as the basis for arranging the natural disaster reinsurance contract. Its content is used as a reference for setting key risk indicators for catastrophe.

a) The premium proportion of underwriting and ceded in reinsurance.

The insurance contracts which the Company underwrites are separated in various types of insurances, and not concentrated in any single type of insurance. In terms of proportion, the voluntary automobile insurance is the highest proportion accounts for 44.06% and 45.88% for the nine months ended September 30, 2025 and 2024, respectively. Although the proportion is slightly higher than other insurances, the loss experience of voluntary automobile insurance is stable and the risk variation is low. The remaining types of insurance are no risk concentration.

(v) Fair value and hierarchy information

1) Fair value information

a) General description

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction among market participants at the measurement date.

b) Definition of fair value hierarchy

i) Level 1

The input of Level 1 is the public quote of the same financial instrument in an active market. An active market is a market that meets all the conditions listed below: Products traded in the market is of homogeneity; it is able to reach buyer and seller anytime in the market and the price information can be accessed by the public. Listed stock, OTC stock, beneficiary certificates, as well as equity and derivative instruments with public quote in an active market possessed by the Company belong to Level 1.

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

ii) Level 2

The input of Level 2 refers to observable price except public quote in an active market, including direct observable input parameters (such as price) or indirect observable input parameters (derivation from price).

iii) Level 3

The input of level 3 is the parameters of measuring fair value, which is from neither on direct market data nor from the counter party.

2) Based on fair value measurement

a) Hierarchy information of fair value

The Company's financial instruments measured at fair value are evaluated on a recurring basis. The financial assets and liabilities measured at fair value were as follows:

e) Quantified information of fair value measurement for significant unobservable inputs (Level 3)

The Company's Level 3 fair value measurements are financial assets at fair value through other comprehensive income – equity instruments investment.

The Company's equity instruments investment without an active market include multiple significant unobservable inputs. Those unobservable inputs of equity instrument without active market are independent from each other, thus, they are not correlative. Since the correlation between significant unobservable inputs and fair value cannot be fully measured in practical, the quantified information is not disclosed.

Items	Evaluation	significant unobservable inputs	relationship between significant unobservable inputs and the fair value
Financial assets at fair value through other comprehensive income - equity instruments without an active market	Market method	<ul style="list-style-type: none"> <li>· Price to Book Ratio</li> <li>· Discount for lack of marketability</li> </ul>	<ul style="list-style-type: none"> <li>· The higher price to book ratio is, the higher fair value is.</li> <li>· The higher discount for lack of marketability is, the lower the fair value is.</li> </ul>

f) Fair value measurement to Level 3, and the sensitivity analysis of the substitutable appropriate assumption made on fair value

The fair value measurement that the Company made for the financial instruments is deemed reasonable; however, different valuation models or inputs could result in different valuation results. Specifically, if the valuation input of financial instruments classified in the Level 3 changes by 1%, the effects on other comprehensive income are as follows:

<u>Change in fair value recognized in other comprehensive income before tax</u>		
	<u>Favorable</u>	<u>Unfavorable</u>
<b>September 30, 2025</b>		
Financial assets fair value through other comprehensive income	\$ <u>136</u>	(136)

**UNION INSURANCE CO., LTD.**  
**Notes to the Financial Statements**

Favorable and unfavorable movements of the Company refer to the fluctuation of fair value, and the fair value is calculated through the valuation technique according to the unobservable inputs to different extent. If the fair value of a financial instrument is affected by more than one input, the above table only illustrates the effect as a result of one single input, and the correlation and variance among multiple inputs are not listed here.

(vi) Financial instruments not measured at fair value

3) Valuation techniques

The valuation assumption and methods of financial instruments not measured at fair value is used by the Company were as follows:

- a) The fair value of short-term financial commodity is estimated by the carrying amount of balance sheet. The carrying amount is the reasonable basis to estimate the fair value, because the maturity date of the commodity is near. The method applied on cash and equivalent cash, accounts receivables and accounts payables.

- b) Financial assets at amortized cost (bond investments without active market)

If investments assets measured at amortized cost have transaction price or quotes of the market makers, use the recent transaction price and quotes as the basis of estimating fair value. If without market value, discounted cash flow method or the quotes of the counterparties are used to calculate fair value or the quoted prices of the counter party.

- c) The refundable deposits and guarantee deposits have no specific maturity date, as a result, using the carrying amount on the balance sheet as the fair value.

- d) The fair value of investment property is assessed by the market practices.

4) Transfer between Level 1 and Level 2
